

Standards-Based Learning

Power Standards

Physical Education

3rd Grade

The K–5 standards on the following pages define what students should understand and be able to do by the end of each grade. They correspond to the College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements—the former providing broad standards, the latter providing additional specificity—that together define the skills and understandings that all students must demonstrate.

Power Standards highlighted All standards must be taught and assessed. Power standards identify the standards that should receive the most instructional focus.

Motor Skills- Students will demonstrate competency in a variety of motor skills and movement patterns

Locomotor

1.1.3A	Demonstrate mature pattern in locomotor skills in isolation (leap, jump, and land in a horizontal plane, and jump and land in a vertical plane).
--------	--

1.1.3B	Apply mature pattern in locomotor skills in a variety of activities
--------	---

Non-locomotor

1.2.3	Apply mature pattern in non-locomotor skills in a variety of activities
-------	---

Balance, Weight Transfer, and Rhythmic Skills

Balance

1.3.3	Demonstrate static and dynamic balance in a variety of activities
-------	---

Weight Transfer

1.4.3	Demonstrate weight transfer from feet to hands for momentary weight support.
-------	--

Rhythm

1.5.3	Demonstrate rhythmic skills in a teacher- or student-designed activity.
